## Merriam Sales Tax Increase

The City has over exaggerated the cost to upgrade the historical Irene French Center and underestimated operating costs for a new center. The result could be you will be paying more property tax or experience less services to pay for their mistaken estimates.

# What the City Isn't Telling You Could Cost You Thousands of Dollars

- What happens if projected sales tax revenues fall short? **The answer is, the taxpayers must pay the difference**
- City's proforma dramatically underestimates expenses. This will likely turn the supposed savings into a **shortfall that taxpayers must bear.**
- The City says your fees to use the Rec Center won't increase, but their proforma shows **annual fees increase as much as 85%.**
